**Test information sheet**

# Liver test

A home blood test of three liver values: the liver enzymes ALT and AST, and albumin. A finger prick at home, posted to our lab, with your values and their usual ranges in your account.

## About this test

### What is the Liver test?

The Liver test is a home blood test that measures three liver values in a few drops of blood: the liver enzymes ALT and AST, and albumin.

### What does the Liver test measure?

The Liver test measures:

- ALT, a liver enzyme (U/l)
- AST, a liver enzyme (U/l)
- Albumin (g/l)

### How does the Liver test work?

You do the Liver test at home in four steps: order the kit, take a few drops of blood with a finger prick, register your kit and post it to our lab, and read your result in your account.

Novi Labtest makes the kit and manages every step; our accredited lab analyses your sample.

### What do you get with your result?

You get each value with its usual range, in your account. Only you see it.

A lab result is not a diagnosis and doesn't replace advice from a doctor. If you have symptoms or concerns, or a value is outside the usual range, please contact your doctor.

## What the test measures

- ALT (U/l)
- AST (U/l)
- Albumin (g/l)

## At a glance

**Sample**
Finger prick, at home

**Who it is for**
[who the test is for]

**Result**
Within [n] working days after our lab has your sample

**Return**
[return label]

**Analysis**
Our lab

## What is in the kit

- Tube with yellow cap and kit code
- 2 safety lancets
- Alcohol wipe
- Tube stand, to fold
- Instructions
- Return envelope
- Safety bag
- Sterile gauze pad
- Plaster
- Absorbent sheet
- Printed kit box
- Shipping envelope
- Tube extender
- Test form

## Questions and answers

**What does the Liver test measure?**
Three values: the liver enzymes ALT and AST, and albumin.

**Is there anything to avoid before the test?**
[Advice of our lab before the sample, for example on alcohol or exercise.]

**How do I take the blood sample?**
With a finger prick at home: a few drops of blood from your fingertip into the tube of the kit. The tab Guide and the instructions PDF show every step.

**How long until my result?**
Your result is ready within [n] working days after our lab has your sample. It's in your account, and we let you know when it's there.

**Who sees my result?**
Only you. Your result is in your account, and you decide whether you share it, for example with your doctor.

**Is the result a diagnosis?**
No. A lab result is not a diagnosis and doesn't replace advice from a doctor. If you have symptoms or concerns, or a value is outside the usual range, please contact your doctor.
